

**Chatham Township
Road Maintenance Program
Wickham Woods Drainage Improvements**

Public Notice
March, 2016

Dear Resident:

Please be aware that construction of the Wickham Woods Drainage Improvements project is scheduled to restart on Runnymede Road on Monday, March 7, 2016. During the final phase of the project in March, the Contractor will be working in various locations within the project area from day to day, so it will be important for all residents in the neighborhood to be alerted to the potential for ongoing work near their home.

Written notices will be provided to alert homeowners as to the day that the pipeline work will be happening in front of their home. Driveway access may not be available for a temporary period during the day, while trench work is ongoing in front of the driveway. Efforts will be made to minimize the time that driveway access is unavailable.

All roads in the Wickham Woods development will be kept open at all times; however, it would aid project progress if homeowners could temporarily alter their typical driving/walking routes around the active construction area when possible.

Thanks for your patience and cooperation!
